

Kruger Itinerary Planning

Three schematic planning structures for short, balanced and longer Kruger stays, without prescribing live driving routes.

Map key

- Short southern focus
- Southern and central combination
- Longer south-to-north progression
- Possible camp anchor

Planning limits

Not to scale and not live navigation.
These are planning structures, not prescribed roads or daily schedules.
This is a planning map, not live navigation.
Confirm current gates, road conditions, closures, activities and access rules with the responsible authority.
Distances and travel times are approximate; allow additional time for wildlife stops.
Wildlife sightings are not shown or guaranteed. Sensitive conservation locations are excluded.

Manually checked: 18 July 2026. Operational details checked against the responsible official authority.
